Name of Product:	Zpirit Fruit Infused Water

What's innovative about the product?

Through a proprietary steeping process using real herbs and fruit, Zpirit is naturally infused with flavors from fruit pieces and herbs. The flavors are slowly diffused into the water, giving it a light and refreshing taste. With only 5 grams of sugar, Zpirit Infused Water contains 30 calories per bottle. 2 grams of natural sugar comes from the fruit pieces themselves while the rest comes from organic cane juice. 4 flavors available: Mandarin & Mint, Spiced Pear and Vanilla, Peach & Basil, Pineapple & Sage
