

Invitation to Measurement Canada's 2025 Weights and Measures Forum

Dear Stakeholders,

You are cordially invited to attend the 2025 Weights and Measures Forum hosted by Measurement Canada this fall in Montréal (Quebec):

Date: November 26, 2025

Time: 8:30 a.m. to 4:30 p.m., Eastern Time

Location: Sun Life Building, 7th floor, 1155 Rue Metcalfe, Montréal (Quebec) H3B 2V6

Format: Hybrid (virtual and in-person); light refreshments will be available on-site.

Language: The forum will be presented in both official languages.

Cost: There is no registration fee.

This event will provide an opportunity to engage with stakeholders from across Canada's trade measurement community through discussions, updates and knowledge sharing. At the event, you can expect the following:

- an overview of Measurement Canada's programs and services,
- updates on type approval programs and policies,
- technical updates on device type approvals and calibrations,
- discussions on new and emerging requirements in legal and digital metrology, and
- updates on policies regarding the measurement accuracy of renewable fuels used in trade in weights and measures.

While the event will focus primarily on topics of particular interest to owners and manufacturers of weighing and measuring devices (e.g. gravimetric, liquid volume, dimensional and thermal energy devices), authorized service providers (ASPs) are also encouraged to attend.

This forum will be an excellent opportunity to learn about the requirements that apply to weighing and measuring devices used in trade in Canada and to network with other professionals in the industry.

If you would like to attend, please register [online](#) or by scanning the QR code, no later than September 26, 2025.

If you have any questions or require special accommodation, please write to us at mcwminnovation-mcpminnovation@ised-isde.gc.ca. Also, if there are any topics of discussion you'd like to propose, please include them in the registration form or send them to us by [email](#).

We look forward to your participation in this forum and to connect with you in person or virtually!
